SCHOOL HOLIDAYS SORTED -**RIGHT AT YOUR OFFICE!**

Bring STEM Fun to Your Workplace with Junior Engineers

We deliver engaging, hands-on coding, robotics and tech experiences for kids on-site or online—while your team stays focused and stress-free.

Why Your People Will Love It

Happy Parents = Productive Teams

No more juggling school holiday care. Staff stay present, focused and grateful.

Build a Family-Positive Culture

Show your team they're valued with real support that impacts home and work life.

Boost Your Employer Brand

Attract and retain top talent with inclusive, family-friendly benefits that stand out.

We're Proud to Have Supported:

YOUR KIDS CREATE AWESOME DIGITAL PROJECTS

Engaging and Educational Curriculum

We offer a dynamic, hands-on curriculum where children create a new digital project each holiday period.

SEPTEMBER 2025

JANUARY 2026

APRIL 2026

JUNE 2026

EASY TO IMPLEMENT

We know you've got a business to run, so we do the hard work for you!

Simple Setup

We require a delivery space with tables, chairs, a projector and WiFi.
All other equipment is provided by us.
Students bring their own laptops and in some cases, laptops can be supplied

Admin Handled by Junior Engineers

Enrolments are handled via our website, creating very little administrative work for you

Communication Made Easy

We develop customised marketing collateral for you to email to staff to inform them of the opportunity

We're Ready To Go

We hold all the requisite insurances and instructor Working With Children Checks to deliver our programs to kids

Company Subsidised or User Pay

You can elect to subsidise the program for staff or run a user pay model where staff pay for the program, avoiding any financial outlay for the company
